

SUPPORTED COMMUNITY LIVING

Supported Community Living (SCL) provides people with disabilities the opportunity to live as independently as possible in the community. Service includes support with safety, housekeeping, finances, communication, employment, socialization, transportation and wellness.

Hourly Supported Community Living provides service from just a few hours per month up to eight hours per day. This goal-focused program maintains the independence clients currently have while working toward greater independence. Clients access the community in varying ways to increase their own independence such as by utilizing public transportation, grocery shopping, working out and forming meaningful relationships with peers. Hourly Supported Community Living serves children and adults with disabilities in Polk and surrounding counties.

24 Hour Supported Community Living serves adults who require a higher amount of service hours in their place of residence and the community. Clients learn independent living skills such as household maintenance, meal planning, budgeting and socialization, all while working toward the goal of greater independence. 24-Hour Supported Community Living serves adults with disabilities in Polk and surrounding counties.

Roommates Mason and Taylor receive support 24-hours a day from Easterseals Iowa, so they can live independently in their home. For Mason, a young man with cerebral palsy in his 20s, this is the first time he has been able to be independent of his parents, thanks to the support he receives from Easterseals Iowa.
