

SUPPORTED EMPLOYMENT

Supported Employment assists clients in both obtaining and maintaining community-based employment. A job developer supports clients in determining employment opportunities they are interested in and in finding a job. Job developers also support clients to fill out applications, prepare resumes and perfect interview skills.

Once a job is obtained, a job coach assists clients to learn job responsibilities, the culture and values of the work environment, job accommodations and explaining how employment affects their benefits. Supported Employment serves adults age 18 and older who are diagnosed with a developmental and/or intellectual disability in Polk and surrounding counties.
